How To Give Good Sex: A 100% Comprehensive Guide For Men And Women Featuring Actual Lovemaking Tips That Have Been Mostly Tested

INTRODUCTION

Admit it. You're bad in bed.

But it isn't because you're ugly. Or stinky. Or morbidly obese. I'm all of those things, and I'm still a tiger while making love. An ugly, stinky, obese tiger.

You can be, too.

My name is Doctor Hans Uberass. I have spent years mastering sexual techniques so powerful they can provide annual electricity needs for a small village in the Sudan.

If you're a man, this book will show you how to drive a woman crazy with lust. It will give you in-depth bedroom secrets that will make super models stalk you, begging for your penis.

If you're a woman, it will show you how to attract the man you want, then trap him into a bad marriage.

But before we go any further, I need to make sure that this book is being read by adults,

ages sixteen and older, because these tips are FOR ADULTS ONLY.

This ebook is equipped with the latest in age-detection technology, using cutting edge things like transistors, and quarks.

If you are sixteen or older, you can continue to read, uninterrupted.

But if you are under sixteen, your ereading device can sense this electronically and will explode, hurling glass shards into your face and eyes.

Did you read that, kids? You will be blind and disfigured, forever, simply because you had a healthy curiosity about how babies are made. And it serves you right.

If your Kindle has not exploded, you may read on.

But first, a disclaimer:

DISCLAIMER: Be careful! If you follow all the tips in this book, the adult film industry will find out, then pay you millions of dollars to have sex with hot celebrities! If you don't want that to happen, STOP READING RIGHT NOW!!

Before we begin, you need to be familiar with certain "sex lingo." So I have provided some definitions.

DEFINITIONS

Sex: Making love.

Orgasm: The end part of making love. Often the messiest part.

Penis: The male sexual organ. Also known as the "wonder worm." Or "Bruce."

Vagina: Where babies come out of. Also known as the "cooter." Or "Bruce's Best Buddy."

Anal sex: Making love with a control freak.

Eating Out: Going to a restaurant.

Blowjob: Usually between \$15 and \$50.

Transsexual: Having sex in a Trans Am.

S/M: A scene where people spank each other for some sick reason.

69: A real mouthful.

BMW: The Ultimate Driving Machine .

Now that we've defined all you need to know, let's answer some common sex questions.

SOME COMMON SEX QUESTIONS

Q: Sometimes I have trouble getting an erection. What can I do?

A: Ask a friend to step in and take over. Or, if

you have a lot of money, hire someone.

Q: What's the best form of birth control?

A: Visiting a grammar school band recital.

Q: Is it okay to touch myself?

A: Masturbation is perfectly natural and healthy, and nothing to be ashamed of.

But you will burn in hell for it.

Q: How do I know if my wife is faking an orgasm?

A: She is. Women don't have orgasms.

Q: What do I do if the condom is too small?

A: Tell everyone. Even strangers.

You might also want to rent a billboard.

Q: Can a woman get pregnant via anal sex?

A: Yes. But the baby will look like shit.

Q: What should I do if I lose an erection?

A: Go to the lost-and-found. If yours isn't there, take one that is. Maybe it'll be even bigger.

Also, look for gloves. A lot of people lose gloves, and some are really nice.

Q: My girlfriend has a vibrator. Should I be threatened by it?

A: Of course not. It simply means she doesn't love you because you can't satisfy her.

Q: I use the pill as birth control, but whenever I begin having sex, the pill falls out. What should I do?

A: Blow him.

Q: I like it when my partner pinches my nipples really hard. Does that make me a pervert?

A: Yes. Yes it does.

Q: What's the best way to avoid sexually transmitted diseases?

A: Don't have sex with people who have sexually transmitted diseases.

Also avoid public toilets. Trust me, it's better to wet your pants.

Q: How long is the average penis?

A: Nine and a half inches long. In Europe, where they use the metric system, it is five centimeters.

Q: What's the term for a man having sex with three women at once?

A: Damn lucky.

Q: Is it true men ejaculate a teaspoon?

A: No. They ejaculate semen. A teaspoon would hurt like hell.

Q: Are you making this stuff up?

A: Mind your own damn business, Mr. Nosy.

her clitoris.

That is, if you can find it. Should be down there, somewhere. Maybe. The clitoris might just be an urban myth, like the chupacabra.

Just to be sure, stroke everything in the bathing suit area.

METHOD #7 – The Missionary Surprise

Dress up as a missionary. Then yell, "Surprise!"

METHOD #8 – The Beaver Pleaser

Tell her you don't give a dam .

METHOD #9 – The Compassionate Lover

Be really fast so she doesn't mind so much.

And turn the TV on, so she has something to watch.

A lot of chicks dig Oprah.

METHOD #10 – The Wet Snatch

When she's in the shower, steal her purse.

WHAT IF I CAN'T GET IT UP?

The sad truth is , 100% of men over the age of 18 will suffer from erectile dysfunction, often accompanied by uncontrollable diarrhea, and

cancer.

But here are ten tricks for getting hard that will work for absolutely anyone.*

*(Except for you, you flaccid loser)

TRICK #1 – The Splint

Two popsicle sticks and some yarn, and she won't know the difference.

TRICK #2 – Steroids

Keep some metabolic steroids next to the bed. If you feel your erection fading, boost your ardor by directly injecting the steroids into your penis and testicles.

TRICK #3 – Dirty Talk

Tell your partner she's a filthy, dirty slut, and blame her for losing the erection .

Then, when she's crying in the other room, steal her purse.

TRICK #4 – Oral To The Rescue

If your hard-on begins to wane , kindly ask your partner to wait a moment. Then suck your own dick until you're erect again.

TRICK #5 – Porn

All men are excited by pornography. If you begin losing interest in your partner, ask her to hold your laptop over her face while you search the Internet for someone more attractive. Then pretend you're having sex with the porn actress.

TRICK #6 – Drugs

There are many drugs on the market used to treat impotence in men, such as Viagra, Cialis, Levitra, and Mycoxadud.

While these are effective at helping men gain and maintain an erection, some may have side-effects, including dry mouth, headaches, making your poop your own liver, bleeding rashes, oral fungus, broken ribs, death, square dancing, toothache, magpies, breast enlargement, and making you think you're Shatner.

Some men also have difficulty asking their doctor about these drugs, because of embarrassment. And you should be embarrassed, Mr. Limpy, because your doctor and his whole staff are going to make jokes about you as soon as you leave.

Jokes may include :

"He has no lead in his pencil!" and "There goes Softy McSoftdick!" and "He's going to poop out his own liver!"

So the best way to get these drugs is to rob a pharmacy. Use a gun, and shoot a few people to show you mean business.

Also, while you're there, don't forget to grab some amphetamines and opiates. Those are fun.

TRICK #7 – The Zip Tie

Get one of those plastic zip ties used for binding cable , and wrap it around the base of your erection. Then pull it so tight the blood cannot escape. This hard-on can last for days.

When you are done making love, or if your penis turns brown and starts to smell like bad cheese, cut off the zip tie with tin snips, or a battery powered saw.

TRICK #8 – The Switcheroo

Keep a cucumber under your pillow. (Or, if you are European, a baby carrot.) When your erection starts to fade, pull out while simultaneously distracting your partner. Some examples could include:

"Let's change positions " or "I think the house

is on fire."

Then slip the vegetable inside her, pretending it is your penis. Move it in and out for a few minutes, moan loudly, and then roll off and say, "Got anything to eat?"

She'll never know the difference.

TRICK #9 – Surgery

There is expensive, painful surgery where a balloon is sewn into your penis and pumped up with air using a thick hose that is forced down your pee-pee hole.

There are also people who use weights to stretch out their earlobes until the y hang so low they can be tied in knots.

I don't recommend either. B ut the ear one sounds less painful.

The only time a doctor should go near your penis is when you're being treated for STDs, which you got from that toilet seat. I told you to wet your pants, dummy.

TRICK #10 – Mr. Willy's Hoedown

This doesn't mean anything. I just like how it sounds .

SEX MOVES FOR WOMEN, 100%

GUARANTEED TO WORK*

*(these really will work)

METHOD #1 – Take Off Your Top And Grab His Junk

No further explanation needed.

And, really, this is the only sex move you'll ever need. It always works.

But since you paid 99 cents for this book, I'll also offer a bonus tip:

BONUS TIP: Put His Penis In Your Mouth

This is another trick that works 100% of the time.

If you master these two skills, you can have any man you want. Rock stars. Married men. Priests. Charlie Sheen. Any guy at all.

And don't forget to fake that orgasm.

HOMOSEXUALITY

In this final part , you'll learn everything you need to know about gays and lesbians.

Because of the controversial nature of this section, I stuck it in the end.

IS GAY SEX WRONG?

Every person has a stage where they are curious about the same sex. This stage usually begins at adolescence, and lasts until the late sixties.

It is a well-known fact that two women making love is a beautiful thing that should be put on video. This is a law in forty-three states.

It is also well-known that when two dudes have sex, they don't have to bother with unimportant distractions like "feelings" and can get right to it and then pop some beers and watch the ball game.

In both instances, this is 100% natural, as long as both partners are consenting adults.

One way to help an adult to consent is with a lot of booze. You might also try drugging them.

METHODS OF GAY SEX

The methods of gay sex, just like the methods of straight sex, are filled with mystery, and no one really knows how it works. Maybe it's just rubbing your sex parts against each other. Or insertion of some kind. Your guess is as good

as mine.

But if you do find yourself in a same sex relationship, here are some tips:

GAY SEX TIP #1 – Get Yours First

Once you're satisfied, you can always make up some excuse for why you can't return the favor. Some good excuses are:

"I need to get home because the TV repairman is coming" or "I have herpes."

Then you won't have to do anything you find icky.

This also works with straight sex.

GAY SEX TIP #2 – Use Protection

This is the only way to guarantee there are no unwanted pregnancies.

GAY SEX TIP #3 – Communal Showers

If you are interested in having gay sex, try to shower a lot with people of your gender.

While in the shower, stare directly at them as they wash.

Also, give off subtle hints conveying your interest. Such as stroking your naughty bits and moaning. Or telling them you have a gun.

GAY SEX TIP #4 – Close Your Eyes and Take It

Maybe you'll like it.

If you are a man having gay sex, it might make things easier to imagine your partner is a woman, who is nailing you up the rear with her big penis.

If you are a woman having gay sex, remember that shooting video works best in well-lit conditions.

CONGRATULATIONS!

You are now a sexual tiger! Celebrate by having sex with whoever is closest to you, right now.

Enjoy your new improved sex life, and remember to tell everyone you know about this ebook, because I want to buy lots of expensive stuff.

I like fur coats. But I'm against the killing of animals for their fur. So I only buy fur coats made from animals that died of natural causes, like those raised on a farm and slaughtered for food.

Also, mink burgers are delicious. Try one with cheese. Yum!

A NOTE FROM THE AUTHOR

Remember to leave positive reviews for this book, so more suckers get duped into buying it. Five stars is a good rating. Use lots of helper words like "Wonderful!" and "Life-changing!" The more exclamation points, the better.

If, for some reason you were disappointed in the book, or if the easy to follow instructions didn't work for you, too bad. What did you expect for 99 cents? Don't blame me because you're a loser in the sack, Loser McLoser. It's no wonder your parents didn't love you.
